Marshall for the Western District of Virginia.

We confess our astonishment and mortification on seeing the reported appointment of John A. Marshall, Esq., of Fauquier county, to this office, vacated by the death of James P. Jones, Esq. We had hoped that a sense of justice would have conferred the appointment to the District, if not to our particular region of the District.

We were seriously anxious for the success of one of our townsmen, whose long public services and eminent qualifications fitted him for such a discharge of the duties of the office, as could not have failed to give satisfaction.

We feel that Wheeling had a strong claim upon the appointing power, growing out of the fact that a large portion of the business of the Federal Court in this District will be transacted here. We speak the sentiment of both political parties when we say that justice demanded the appointment of a Western man; and the new Secretary of State has added to this the fact that in the estimation of Western Whigs, by his peturbation of a principle which has simple them hewers of wood and drawers of water to their more favored Eastern brethren.

We know nothing of Mr. Marshall personally; but we hesitate not to say that there were applicants in the District, his equals in every respect and supported by recommendations equal, if not superior to his. We do complain therefore that all these have been passed by and an Eastern man appointed. No wonder, then, that Whig Administrations are short lived, like the morning clouds and early dews.

The London Times has a rather noticeable reading article (4th inst.) It commences by stating that owing to the "blunders" of the Whigs, the "undignified" conduct of General Scott, and the "disorderly attempts" of Mr. Webster, it never entertained a doubt of the success of Pierce.

It rejoices that General Scott is known to be favorable to low tariffs and liberty of trade; praises Mr. Fillmore as possessing neither the passion nor the enthusiasm of his fellow citizens; next states, finally, that the sending out of the Japanese Expedition was a sham; that its real destination is Cuba; but if it be for Japan, that is insufficient, and that the President's letter "will be read with astonishment, and resented as an indignity." "The truth is," says the Times, "the American Cabinet is prepared to deal with the guano of Lobo, and there is no defence against such a policy but the possession of superior strength."

Death of Dr. Cowdery.

Dr. S. Cowdery, recently deceased at Norfolk, in the 85th year of his age, was one of the oldest surgeons in the United States Navy, he having received his appointment from the elder Adams in 1800. An incident in his professional history is thus noted by a correspondent of the Norfolk Herald:

"He was one of the medical officers of the frigate Philadelphia, in 1803, when that ship, under the command of Commodore Bainbridge, and whilst in the harbor of the Tripoli, came upon a reef and fell into the hands of the enemy. Along with Porter, Jacob Jones, Renshaw, Riddle, Patterson, and other young heroes, who afterwards so gallantly illustrated the naval history of our country, he was thrown into prison at Tripoli, and whilst there it was the good fortune of Dr. Cowdery to render important professional service to the Basiliad, during a severe illness, which had also the happy effect of maintaining the rights of the government, and of low prisoners. It was an event of much note at the time, and added greatly to the professional reputation of the young surgeon, especially as the medical attendants of the government were few, and were wholly unable to relieve their patient. In the war of 1813-14, and since that time, at home and abroad, his services have been efficient; but, however useful, the success of the surgeon is ever less noted than distinguished than that which marks the career of a military leader—it is one of the triumphs of peace, even amidst the turbulence of war."

AN APPEAL TAKEN.—The case of the Lemmon Slaves has been carried up to the Supreme Court of New York, which is to meet in the city of New York, on the 19th of next month. Even if Judge Paine's decision should be reversed, says the Judge of Commerce, it is not at all probable that the slaves will be in reach. Mr. Lemmon, it is understood, would have no objection to relinquish his claim to them, after receiving the indemnity money which is in process of collection, were it not that such formal relinquishment would render it impossible to test the important legal question involved, by prosecuting the case in the higher Courts.

THE HON. WALTER FORWARD, who died at Pittsburgh a few days ago had filled many important stations. He represented Allegheny county in Congress for many years; was Secretary of the Treasury under President Tyler's administration, and at one time Minister to Denmark. He was also a member of the Convention which reformed the Constitution of the State. Up to the time of his death he was Judge of the United States Court of the Pittsburgh district.

MASSACHUSETTS.—The Governor and Council have ordered new elections to be held for members of Congress in the vacant districts, on the second Monday (the 13th) of December. A plurality will elect on this trial.

The Boston Courier of yesterday morning gives the following as the result of the election on Monday for representatives to the Legislature: Whigs 149, Coalitionists and Democrats 143—six towns to be heard from, all of which, except one, gave Coalition majorities at the last Governor's election.

A NEW Orleans merchant lately purchased a quantity of tea in New York. Among the lot was one chest marked Imperial, which was very high cost, and of course, supposed to be of a very high quality; but upon opening the box, it was found to contain only rice cake mixed up with light yellow colored earth. The box had been opened in open view, and it left China.

The Baltimore papers announce, as an evidence of the rage for office in that city, that Mary Ann Holman, who has been inaugurated but eleven days, has received more than one thousand applications for offices within his bestowal, from the City Collectors to substitutes for the night watch and sweepers out. Those who have their eye on Uncle Sam's pap-bow are still more numerous.

THE BUCKEYE BELLS.—The coroner's jury in this case, after taking a large mass of testimony, returned a verdict that the explosion "was caused by the improper management of the 2d engineer, Joseph Demaris, of Harmer. The number of killed and injured is thirty."

Gen. Cass has stated that under no circumstances will he accept a position in the new Cabinet. So says the Detroit Tribune.

## Thackeray's Lectures.

The lecture of Thackeray, last evening, was one of the most successful ever listened to. Mr. Thackeray was equally good. He made up Dean Swift (the subject of the discourse) a most unlovable character; but yet, with so much to redeem his rashness, madness and general badness of character, that one could single him out as a man of genius. Of the charming Stella, who loved Swift so well, a perfect and most touching picture was drawn. Nothing could excel the angelic sweetness and tenderness of her character, contrasted with cruelty and coarse brutality of that of Swift.

The audience listened for about one hour and a quarter with unmingled delight, and the praises of the lecture were upon all lips as it closed. The subject need not be too tall to the writer's great power, which is that of humor; but all through the lecture, there was a display of the most pointed wit, while the pathos was touching, truthful and beautiful in nature or art could make a story and instruct.

The voice of Thackeray is one of great volume and sweetness and he was heard with perfect distinctness at the extreme points of the church. His appearance is also favorable to his form being very full and his person tall and stately. The audience filled the entire body and gallery of the spacious church, and everybody felt inclined to thank the Mercantile Library Association, for no acceptable entertainment.—N. Y. Express.

## Gov. Johnson's Majority in Virginia.

As there is a general understanding about the actual vote Gov. Johnson received, we will give the true state of the case in as precise terms as possible.

In January last, a committee of the Legislature made a report, in which Johnson's majority was put down at 8,487. This was discovered by the committee on the 10th of February, and was committed for another addition. The second report was made in March, and the Democratic majority was declared to be 6,462. But the returns from Charles City, Clarke, Carroll, Grayson, Lancaster, Pleasants, and Shenandoah, had not been received, and were not therefore included. By the statements published in the papers, those counties gave Summers 2,148 and Johnson 1,660, a majority of 488 for Johnson.

The committee on the 10th of February, and was committed for another addition. The second report was made in March, and the Democratic majority was declared to be 6,462. But the returns from Charles City, Clarke, Carroll, Grayson, Lancaster, Pleasants, and Shenandoah, had not been received, and were not therefore included. By the statements published in the papers, those counties gave Summers 2,148 and Johnson 1,660, a majority of 488 for Johnson.

The committee on the 10th of February, and was committed for another addition. The second report was made in March, and the Democratic majority was declared to be 6,462. But the returns from Charles City, Clarke, Carroll, Grayson, Lancaster, Pleasants, and Shenandoah, had not been received, and were not therefore included. By the statements published in the papers, those counties gave Summers 2,148 and Johnson 1,660, a majority of 488 for Johnson.
